AUTHOR INDEX

Autian, J.
Toxicity of Fabric Combustion Products, p. 371
Fire Toxicology Studies at the Materials Science Toxicology Laboratories, University of Tennessee Center for the Health Sciences, p. 117

Birky, M.M.
A Chronic Intra-Arterial Cannula and Rapid Microtechnique for Carboxyhemoglobin Determination, p. 471
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5

Breysse, P.A.
Combustion and Pyrolysis Products from Synthetic Textiles, p. 393

Bucci, T.J.
A Technique for Extracting Blood Samples from Mice in Fire Toxicity Tests, p. 465

Butte, J.C.
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24

Christopher, A.J.
Some Aspects of Smoke and Fume Evolution From Overheated Non-Metallic Materials, p. 89

Cummins, J.M.
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24

Dipasquale, L.C.
Toxicity of Solid Rocket Motor Exhaust: Effects of HC1, HF, and Alumina on Rodents, p. 61

Dressler, D.P.
Toxicity of Thermal Decomposition Products of Various Paints, P. 71

Fiserova-Bergerova, V.
Mathematical Modeling of Inhalation Exposure, p. 201

Frens, D.B.
A Chronic Intra-Arterial Cannula and Rapid Microtechnique for Carboxyhemoglobin Determination, p. 471

Furst, A.
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24
Apparent Lethal Concentrations of Pyrolysis Products of Some Polymeric Materials, p. 345
Effect of Species on Relative Toxicity of Pyrolysis Products, p. 125
Effect of Temperature and Heating Rate on Apparent Lethal Concentrations of Pyrolysis Products, p. 381
Relative Toxicity of Pyrolysis Products of Some Materials Used in Home Furnishings, p. 425.
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270

Gaume, J. G.
An Animal Exposure Test System for Large Scale Fire Tests, p. 166

Gilwee, W.J.
Relative Toxicity of Pyrolysis Products of Some Cellular Polymers, p. 259

Herrera, W.R.
An Investigation of Potential Inhalation Toxicity of Smoke From Rigid Polyurethane Foams and Polyester Fabrics Containing Antiblaze® 19 Flame Retardant Additive, p. 296

Hilado, C.J.
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24
Apparent Lethal Concentrations of Pyrolysis Products of Some Polymeric Materials, p. 345
A Bibliography of Published Information on Combustion Toxicology, p. 189
The Effect of Changes in the USF/NASA Toxicity Screening Test Method on Data from Some Cellular Polymers, p. 237
Effect of Species on Relative Toxicity of Pyrolysis Products, p. 125
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
Effect of Temperature and Heating Rate on Apparent Lethal Concentrations of Pyrolysis Products, P. 381
Evaluation of the Smoke Density Chamber as an Apparatus for Fire Toxicity Screening Tests, p. 103
A Large Hemispherical Chamber for Fire Toxicity Tests, p. 284
Relative Toxicity of Pyrolysis Products of Some Cellular Polymers, p. 259
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32
Relative Toxicity of Pyrolysis Products of Some Loose Fiber Materials: A Preliminary Study, p. 151
Relative Toxicity of Pyrolysis Products of Some Materials Used in Home Furnishings, p. 425
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211
Studies With the USF/NASA Toxicity Screening Test Method: Effect of Air Flow and Effect of Fabric Dye, p. 479
A Study of the Toxicology of Pyrolysis Gases from Synthetic Polymers, p. 157
A Technique for Extracting Blood Samples from Mice in Fire Toxicity Tests, p. 465

Hsu, M.S.
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211

Hung, G. W.
Determination of Hydrogen Cyanide in Fire Gases, P. 363

Johnson, A.C.
A Bibliography of Published Information on Combustion Toxicology, p. 189

Johnston, B.E.
An Investigation of Potential Inhalation Toxicity of Smoke from Rigid Polyurethane Foams and Polyester Fabrics Containing Antiblaze® 19 Flame Retardant Additive, p. 296

Keller, J.G.
An Investigation of Potential Inhalation Toxicity of Smoke from Rigid Polyurethane Foams and Polyester Fabrics Containing Antiblaze® 19 Flame Retardant Additive, p. 296

Kourtides, D.A.
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24
Apparent Lethal Concentrations of Pyrolysis Products of Some Polymeric Materials, p. 345
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymierc Materials by the USF/NASA Toxicity Screening TEst Method, p. 305
Relative Toxicity of Pyrolysis Products of Some Cellular Polymers, p. 259
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211
A Study of the Toxicology of Pyrolysis Gases from Synthetic Polymers, p. 157

LaBossiere, L.A.
Evaluation of the Smoke Density Chamber as an Apparatus for Fire Toxicity Screening Tests, p. 103
The Sensitivity or Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211

Leon, H.A.
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24
Effect of Species on Relative Toxicity of Pyrolysis Products, p. 125
A Large Hemispherical Chamber for Fire Toxicity Tests, p. 284
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211

Lopez, M.T.
Studies With the USF/NASA Toxicity Screening Test Method: Effect of Air Flow and Effect of Fabric Dye, p. 479
A Technique for Extracting Blood Samples from Mice in Fire Toxicity Tests, p. 465

Marcussen, W.H.
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24
Apparent Lethal Concentrations of Pyrolysis Products of Somer Polymeric Materials, p. 345
Effect of Species on Relative Toxicity of Pyrolysis Products, p. 125
Effect of Temperature and Heating Rate on Apparent Lethal Concentrations of Pyrolysis Products, p. 381

McCandless, J.B.
A Chronic Intra-Arterial Cannula and Rapid Microtechnique for Carboxyhemoglobin Determination, p. 471

Miller, C.M.
The Effect of Changes in the USF/NASA Toxicity Screening Test

Method on Data from Some Cellular Polymers, p. 237

Morikawa, T.
Acrolein, Formaldehyde, and Volatile Fatty Acids from Smoldering Combustion, p. 135

Nunez, L.J.
Toxicity of Fabric Combustion Products, p. 371
Fire Toxicology Studies at the Materials Science Toxicology Laboratories, University of Tennessee Center for the Health Sciences, p. 117

Packham, S. C.
A Chronic Intra-Arterial Cannula and Rapid Microtechnique for Carboxyhemoglobin Determination, p 471

Parker, J.A.
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24
Apparent Lethal Concentrations of Pyrolysis Products of Somer Polymeric Materials, p. 345
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
Relative Toxicity of Pyrolysis Products of Some Cellular Polymers, p. 259
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211
A Study of The Toxicology of Pyrolysis Gases from Synthetic Polymers, p. 157

Petajan, J.H.
A Chronic Intra-Arterial Cannula and Rapid Microtechnique for Carboxyhemoglobin Determination, p. 471

Robinson, R.S.
Toxicity of Thermal Decomposition Products of Various Paints, p. 71

Solis, A. N.
Effect of Temperature and Heating Rate on Apparent Lethal Concentrations of Pyrolysis Products, p. 381

Toxicity of Solid Rocket Motor Exhaust: Effects of HC1, HF, and Alumina on Rodents, p. 61

Wohlslagel, J.
Toxicity of Solid Rocket Motor Exhaust: Effects of HC1, HF, and Alumina on Rodents, p. 61

Young, W.
A Study of the Toxicology of Pyrolysis Gases from Synthetic Polymers, p. 157

SUBJECT INDEX

ABS
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270

Acrolein
Acrolein, Formaldehyde, and Volatile Fatty Acids from Smoldering Combustion, p. 135

Air Flow
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
Studies With the USF/NASA Toxicity Screening Test Method: Effect of Air Flow and Effect of Fabric Dye, p. 479

Aircraft Interior Materials
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270
Some Aspects of Smoke and Fume Evolution From Overheated Non-Metallic Materials, p. 89
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24

ALC_{50}
Effect of Temperature and Heating Rate on Apparent Lethal Concentrations of Pyrolysis Products, p. 381

Alumina
Toxicity of Solid Rocket Motor Exhaust: Effects of HC1, HF, and Alumina on Rodents, p. 61

Animal Exposure
An Animal Exposure Test System for Large Scale Fire Tests, p. 166
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24
The Effect of Changes in the USF/NASA Toxicity Screening Test Method on Data From Some Cellular Polymers, p. 237
Effect of Species on Relative Toxicity of Pyrolysis Products, p.125
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
An Investigation of Potential Inhalation Toxicity of Smoke From Rigid Polyurethane Foams and

Polyester Fabrics Containing Antiblaze® 19 Flame Retardant Additive, p. 296
A Large Hemispherical Chamber for Fire Toxicity Tests, p. 284
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5
Relative Toxicity of Pyrolysis Products of Some Cellular Polymers, p. 259
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32
Relative Toxicity of Pyrolysis Products of Some Loose Fiber Materials: A preliminary Study, p. 151
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211
A Study of the Toxicology of Pyrolysis Gases from Synthetic Polymers, p. 157
Toxicity of Solid Rocket Motor Exhaust: Effects of HC1, HF, and Alumina on Rodents, p. 61
Toxicity of Thermal Decomposition Products of Various Paints, p. 71

Animal Exposure Chamber
Relative Toxicity of Pyrolysis Products of Some Materials Used in Home Furnishings, p. 425
Studies With the USF/NASA Toxicity Screening Test Method: Effect of Air Flow and Effect of Fabric Dye, p. 479
A Technique for Extracting Blood Samples from Mice in Fire Toxicity Tests, p. 465

Animal Module Accessory
Evaluation of the Smoke Density Chamber as an Apparatus for Fire Toxicity Screening Tests, p. 103

Animals, Test
Apparent Lethal Concentrations of Pyrolysis Products of Some Polymeric Materials, p. 345
A Chronic Intra-Arterial Cannula and Rapid Microtechnique for Carboxyhemoglobin Determination, p. 471
Effect of Temperature and Heating Rate on Apparent Lethal Concentrations of Pyrolysis Products, p. 381
Relative Toxicity of Pyrolysis Products of Some Materials Used in Home Furnishings, p. 425
Studies With the USF/NASA Toxicity Screening Test Method: Effect of Air Flow and Effect of Fabric Dye, p. 479
A Technique for Extracting Blood Samples from Mice in Fire Toxicity Tests, p. 465
Toxicity of Fabric Combustion Products, p. 371

Availability for Metabolism
Mathematical Modeling of Inhalation Exposure, p. 201

Behavioral Incapacitation
A Chronic Intra-Arterial Cannula and Rapid Microtechnique for Carboxyhemoglobin Determination, p. 471

Bibliography, Combustion Toxicology
A Bibliography of Published Infor-

mation on Combustion Toxicology, p. 189

Bioassay Experiments
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24
Evaluation of the Smoke Density Chamber as an Apparatus for Fire Toxicity Screening Tests, p. 103
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32
Toxicity of Thermal Decomposition Products of Various Paints, p. 71

Biological Effects of Fire Gases
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24

Blood Extraction Technique
A Technique for Extracting Blood Samples from Mice in Fire Toxicity Tests, p. 465

Blood Samples
A Technique for Extracting Blood Samples from Mice in Fire Toxicity Tests, p. 465

California Vertical Specimen Holder
Evaluation of the Smoke Density Chamber as an Apparatus for Fire Toxicity Screening Tests, p. 103

Cannula, Intra-Arterial
A Chronic Intra-Arterial Cannula and Rapid Microtechnique for Carboxyhemoglobin Determination, p. 471

Carboxyhemoglobin Analyses
A Technique for Extracting Blood Samples from Mice in Fire Toxicity Tests, p. 465

Carboxyhemoglobin Determination
A Chronic Intra-Arterial Cannula and Rapid Microtechnique for Carboxyhemoglobin Determination, p. 471

Cardio-Respiratory Response
An Animal Exposure Test System for Large Scale Fire Tests, p. 166

Cellular Polymers
The Effect of Changes in the USF/NASA Toxicity Screening Test Method on Data From Some Cellular Polymers, p. 237
Relative Toxicity of Pyrolysis Products of Some Cellular Polymers, p. 259

Cellulose
Acrolein, Formaldehyde, and Volatile Fatty Acids from Smoldering Combustion, p. 135

Cellulose Acetate
Combustion and Pyrolusis Products from Synthetic Textiles, p. 393

Chemical Analysis
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5

Colorimetric Tubes
Determination of Hydrogen Cyanide in Fire Gases, p. 363

Combustion
Fire Toxicology Studies at the Materials Science Toxicology Laboratories, University of Tennessee Center for the Health Sciences, p. 117

Combustion Products
Combustion and Pyrolysis Products from Synthetic Textiles, p. 393
An Investigation of Potential Inhalation Toxicity of Smoke from Rigid Polyurethane Foams and Polyester Fabrics Containing Antiblaze® 19 Flame Retardant Additive, p. 296
A Large Hemispherical Chamber for Fire Toxicity Tests, p. 284
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5
Toxicity of Fabric Combustion Products, p. 371
Toxicity of Solid Rocket Motor Exhaust: Effects of HCl, HF, and Alumina on Rodents, p. 61

Combustion System Characterization
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5

Combustion Toxicology, Bibliography
A Bibliography of Published Information on Combustion Toxicology, p. 189

Composites, High Performance
Evaluation of the Smoke Density Chamber as an Apparatus for Fire Toxicity Screening Tests, p. 103

Computer Modeling
Mathematical Modeling of Inhalation Exposure, p. 201

Continuous Exposure
Mathematical Modeling of Inhalation Exposure, p. 201

Cotton
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24
The Effect of Changes in the USF/NASA Toxicity Screening Test Method on Data From Some Cellular Polymers, p. 237
Effect of Species on Relative Toxicity of Pyrolysis Products, p. 125
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32
Relative Toxicity of Pyrolysis Products of Some Loose Fiber Materials: A Preliminary Study, p. 151
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211

Cushioning Materials
Relative Toxicity of Pyrolysis Products of Some Materials Used in Home Furnishings, p. 425

Dog, Beagle
Mathematical Modeling of Inhalation Exposure, p. 201

Douglas Fir
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305

Dye, Fabric
Studies with the USF/NASA Toxicity Screening Test Method: Effect of Air Flow and Effect of Fabric Dye, p. 479

Effluents
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method of Some Test Variables, p. 211

Electrode Response
Some Aspects of Smoke and Fume Evolution From Overhead Non-Metallic Materials, p. 89

Enamel Alkyd Paint
Toxicity of Thermal Decomposition Products of Various Paints, p. 71

Fabric Dye
Studies With the USF/NASA Toxicity Screening Test Method: Effect of Fabric Dye, p. 479

Fabrics
Fire Toxicology Studies at the Materials Science Toxicology Laboratories, University of Tennessee Center for the Health Sciences, p. 117
Toxicity of Fabric Combustion Products, p. 371

Fatty Acids
Acrolein, Formaldehyde, and Volatile Fatty Acids from Smoldering Combustion, p. 135

Fiber Materials
Relative Toxicity of Pyrolysis Products of Some Loose Fiber Materials: A Preliminary Study, p. 151

Fire Environment
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5

Fire Exposure
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5

Fire Gas Characterization
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24

Fire Gases
Determination of Hydrogen Cyanide in Fire Gases, p. 363

Fire Response
Effect of Temperature and Heating Rate on Apparent Lethal Concentrations of Pyrolysis Products, p. 381
Relative Toxicity of Pyrolysis Products of Some Materials Used in Home Furnishings, p. 425

Fire Retardants
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5
Relative Toxicity of Pyrolysis Products of Some Materials Used in Home Furnishings, p. 425

Fire Toxicity Screening Tests
Evaluation of the Smoke Density Chamber as an Apparatus for Fire Toxicity Screening Tests, p. 103

Fire Toxicity Tests
A Large Hemispherical Chamber for Fire Toxicity Tests, p. 284
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32
A Technique for Extracting Blood Samples from Mice in Fire Toxicity Tests, p. 465

Flame Hazard
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5

Flame Retardants
An Investigation of Potential Inhalation Toxicity of Smoke From Rigid Polyurethane Foams and Polyester Fabrics Containing Anti-

blaze® 19 Flame Retardant Additive, p. 296
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32
Toxicity of Fabric Combustion Products, p. 371

Flourine-Containing Polymers
A Study of the Toxicology of Pyrolysis Gases from Synthetic Polymers, p. 157

Forane
Mathematical Modeling of Inhalation Exposure, p. 201

Formaldehyde
Acrolein, Formaldehyde, and Volatile Fatty Acids from Smoldering Combustion, p. 135

Full-Scale Fire Tests
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24

Fume Evolution
Some Aspects of Smoke and Fume Evolution From Overheated Non-Metallic Materials, p. 89

Gas Cromatography
A Chronic Intra-Arterial Cannula and Rapid Microtechnique fro Carboxyhemoglobin Determination, p. 471
Combustion and Pyrolysis Products from Synthetic Textiles, p. 393
Studies With the USF/NASA Toxicity Screening Test Method: Effect of Air Flow and Effect of Fabric Dye, p. 479

Gases, Nature of
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24

Gaseous Products
A Large Hemispherical Chamber for Fire Toxicity Tests, p. 284

Gypsum Wall Board
Toxicity of Thermal Decomposition Products of Various Paints, p. 71

Hazard Assessment
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5

Heat, Flux, One-Dimensional
Evaluation of the Smoke Density Chamber as an Apparatus for Fire Toxicity Screening Tests, p. 103

Heating Rate
Effect of Temperature and Heating Rate on Apparent Lethal Concentration of Pyrolysis Products, p. 381
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32
Toxicity of Thermal Decomposition Products of Various Paints, p. 71

Hemispherical Chamber
A Large Hemispherical Chamber for Fire Toxicity Tests, p. 284

Hemlock
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
Evaluation of the Smoke Density Chamber as an Apparatus for Fire Toxicity Screening Tests, p. 103

Histopathology
Fire Toxicology Studies at the Materials Science Toxicology Laboratories, University of Tennessee Center for the Health Sciences, p. 117

Home Furnishings
Relative Toxicity of Pyrolysis Products of Some Materials Used in Home Furnishings, p. 425

Hydrogen Chloride
Toxicity of Solid Rocket Motor Exhaust: Effects of HC1, HF, and Alumina on Rodents, p. 61

Hydrogen Cyanide
Determination of Hydrogen Cyanide in Fire Gases, p. 363

Hydrogen Fluoride
Toxicity of Solid Rocket Motor Exhaust: Effects of HC1, HF, and Alumina on Rodents, p. 61

Hyperbaric Chamber
Fire Toxicology Studies at the Materials Science Toxicology Laboratories, University of Tennessee Center for the Health Sciences, p. 117

In-Flight Electrical Overheating
Some Aspects of Smoke and Fume Evolution From Overheated Non-Metallic Materials, p. 89

Infrared Spectrophotometry
Combustion and Pyrolysis Products from Synthetic Textiles, p. 393

Inhlaation Exposure
Mathematical Modeling of Inhalation Exposure, p. 201

Inhalation Toxicity
An Investigation of Potential Inhalation Toxicity of Smoke From Rigid Polyurethane Foams and Polyester Fabrics Containing Antiblaze® 19 Flame Retardant Additive, p. 296
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5

Interrupted Exposure
Mathematical Modeling of Inhalation Exposure, p. 201

Intra-Arterial Cannula
A Chronic Intra-Arterial Cannula and Rapid Microtechnique for Carboxyhemoglobin Determination, p. 471

Ion Electrode
Determination of Hydrogen Cyanide in Fire Gases, p. 363

Ion-Specific Electrode
Combustion and Pyrolysis Products from Synthetic Textiles, p. 393

Large-Scale Burn Tests
An Animal Exposure Test System for Large Scale Fire Tests, p. 166

LC_{50}
An Animal Exposure Test System for Large Scale Fire Tests, p. 166
Effect of Species on Relative Toxicity of Pyrolysis Products, p. 125
Evaluation of The Smoke Density Chamber as an Apparatus for Fire Toxicity Screening Tests, p. 103
A Large Hemispherical Chamber for Fire Toxicity Tests, p. 284
Relative Toxicity of Pyrolysis Products of Some Loose Fiber Materials: A Preliminary Study, p. 151
A Study of Toxicology of Pyrolysis Gases from Synthetic Polymers, p. 157

Toxicity of Solid Rocket Motor Exhaust: Effects of HC1, HF, and Alumina on Rodents, p. 61

LD_{50}
An Animal Exposure Test System for Large Scale Fire Tests, p. 166
Effect of Species on Relative Toxicity of Pyrolysis Products, p. 125
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5

Lethal Concentrations, Apparent
Apparent Lethal Concentrations of Pyrolysis Products of Some Polymeric Materials, p. 345
Effect of Temperature and Heating Rate on Apparent Lethal Concentrations of Pyrolysis Products, p. 381

Lethal Conditions
Evaluation of the Smoke Density Chamber as an Apparatus for Fire Toxicity Screening Tests, p. 103

Man
Mathematical Modeling of Inhalation Exposure, p. 201

Metabolism
Mathematical Modeling of Inhalation Exposure, p. 201

Methylene Chloride
Mathematical Modeling of Inhalation Exposure, p. 201

Mice, Swiss Albino
Apparent Lethal Concentrations of Pyrolysis Products of Some Polymeric Materials, p. 345
The Effect of Chamges in the USF/NASA Toxicity Screening Test Method on Data From Some Cellular Polymers, p. 237
Effect of Species on Relative Toxicity of Pyrolysis Products, p. 125
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
A Large Hemispherical Chamber for Fire Toxicity Tests, p. 284
Relative Toxicity of Pyrolysis Products of Some Cellular Polymers, p. 259
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32
Relative Toxicity of Pyrolysis Products of Some Loose Fiber Materials: A Preliminary Study, p. 151
Relative Toxicity of Pyrolysis Products of Some Materials Used in Home Furnishings, p. 425
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211
Studies with the USF/NASA Toxicity Screening Test Method: Effect of Air Flow and Effect of Fabric Dye, p. 479
A Study of the Toxicology of Pyrolysis Gases from Synthetic Polymers, p. 157
A Technique for Extracting Blood Samples from Mice in Fire Toxicity Tests, p. 465

Modeling of Exposure
Mathematical Modeling of Inhalation Exposure, p. 201

Monkey, Rhesus

Mathematical Modeling of Inhalation Exposure, p. 201

NASA Animal Exposure Chamber
Apparent Lethal Concentrations of Pyrolysis Products of Some Polymeric Materials, p. 345
The Effect of Changes in the USF/NASA Toxicity Screening Test Method on Data From Some Cellular Polymers, p. 237
Relative Toxicity of Pyrolysis Products of Some Cellular Polymers, p. 259
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32
Relative Toxicity of Pyrolysis Products of Some Loose Fiber Materials: A Preliminary Study, p. 151
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211

Nomex
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32

Non-Metallic Materials
Some Aspects of Smoke and Fume Evolution From Overheated Non-Metallic Materials, p. 89

Nylon
Combustion and Pyrolysis Products from Synthetic Textiles, p. 393

Oil Paint
Toxicity of Thermal Decomposition Products of Various Paints, p. 71

Oxygen Concentration
Acrolein, Formaldehyde, and Volatile Fatty Acids from Smoldering Combustion, p. 135
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305

Oxygen Consumption
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32

Paints
Toxicity of Thermal Decomposition Products of Various Paints, p. 71

Physiological Instrumentation
An Animal Exposure Test System for Large Scale Fire Tests, p. 166

Physiological Studies
A Large Hemispherical Chamber for Fire Toxicity Tests, p. 284

Polyacrylonitrile
Combustion and Pyrolysis Products from Synthetic Textiles, p. 393

Polyamide, Aromatic
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211

Polyamide Polymers
A Study of the Toxicology of Pyrolysis Gases from Synthetic Polymers, p. 157

Polyaryl Sulfone
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/

NASA Toxicity Screening Test Method, p. 305
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270

Polybenzimidazole (PBI)
Relative Toxicity of pyrolysis Products of Some Foams and Fabrics, p. 32
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211

Polybismaleimide
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270

Polycaprolactone
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305

Polycarbonate
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270

Polychloroprene Foam
The Effect of Changes in the USF/NASA Toxicity Screening Test Method on Data From Some Cellular Polymers, p. 237
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
Studies with the USF/NASA Toxicity Screening Test Method: Effect of Air Flow and Effect of Fabric Dye, p. 479

Polyester
Combustion and Pyrolysis Products from Synthetic Textiles, p. 393
An Investigation of Potential Inhalation Toxicity of Smoke from Rigid Polyurethane Foams and Polyester Fabrics Containing Antiblaze® 19 Flame Retardant Additive, p. 296
Relative Toxicity of Pyrolysis Products of Some Loose Fiber Materials: A Preliminary Study, p. 151

Polyether Sulfone
The Effect of Temeprature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270

Polyethylene
Acrolein, Formaldehyde, and Volatile Fatty Acids from Smoldering Combustion, p. 135
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305

Polymide Foam, Modified
Relative Toxicity of Pyrolysis Products of Some Cellular Polymers, p. 259

Polymeric Materials
Apparent Lethal Concentrations of Pyrolysis Products of Some Polymeric Materials, p. 345
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
Effect of Temperature and Heating Rate on Apparent Lethal Concentrations of Pyrolysis Products, p. 381
Relative Toxicity of Pyrolysis Products of Some Materials Used in Home Furnishings, p. 425

Polymers, Synthetic
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211
A Study of the Toxicology of Pyrolysis Gases from Synthetic Polymers, p. 157

Polymethyl Methacrylate
The Effect of Changes in the USF/NASA Toxicity Screening Test Method on Data From Some Cellular Polymers, p. 237
A Large Hemispherical Chamber for Fire Toxicity Tests, p. 284

Polyphenylene Oxide
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270

Polyphenylene Sulfide
Apparent Lethal Concentrations of Pyrolysis Products of Some Polymeric Materials, p. 345
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270

Polypropylene
Acrolein, Formaldehyde, and Volatile Fatty Acids from Smoldering Combustion, p. 135

Polystyrene
The Effect of Changes in the USF/NASA Toxicity Screening Test Method on Data From Some Cellular Polymers, p. 237

Polysulfone
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270

Polyvinyl Fluoride
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270

Probit Response
Toxicity of Solid Rocket Motor Exhaust: Effects of HC1, HF, and Alumina Rodents, p. 61

Pulmonary Washout
Mathematical Modeling of Inhalation Exposure, p. 201

PVC, Chlorinated
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/

NASA Toxicity Screening Test Method, p. 305
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270

Pyrolysis Products
Apparent Lethal Concentrations of Pyrolysis Products of Some Polymeric Materials, p. 345
Combustion and Pyrolysis Products from Synthetic Textiles, p. 393
Effect of Species on Relative Toxicity of Pyrolysis Products, p. 125
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
Effect of Temeprature and Heating Rate on Apparent Lethal Concentrations of Pyrolysis Products, p. 381
Fire Toxicology Studies at the Materials Science Toxicology Laboratories, University of Tennessee Center for the Health Sciences, p. 117
A Large Hemispherical Chamber for Fire Toxicity Tests, p. 284
Relative Toxicity of Pyrolysis Products of Some Cellular Polymers, p. 259
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32
Relative Toxicity of Pyrolysis Products of Some Loose Fiber Materials: A Preliminary Study, p. 151
Relative Toxicity of Pyrolysis Products of Some Materials Used in Home Furnishings, p. 425
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270
A Study of the Toxicology of Pyrolysis Gases from Synthetic Polymers, p. 157

Pyrolysis Temperature
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211

Pyrolysis Toxicity Apparatus
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32
Relative Toxicity of Pyrolysis Products of Some Loose Fiber Materials: A Preliminary Study, p. 151

Rat Mortality
Fire Toxicology Studies at the Materials Science Toxicology Laboratories, University of Tennessee Center for the Health Sciences, p. 117

Rats, Sprague-Dawley
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24
A Chronic Intra-Arterial Cannula and Rapid Microtechnique for Carboxyhemoglobin Determination, p. 471
Effect of Species on Relative Toxicity of Pyrolysis Products, p. 125
Evaluation of the Smoke Density Chamber as an Apparatus for Fire Toxicity Screening Tests, p. 103
An Investigation of Potential Inhalation Toxicity of Smoke from Rigid Polyurethane Foams and Polyester Fabrics Containing Antiblaze® 19 Flame Retardant Additive, p. 296
A Large Hemispherical Chamber for Fire Toxicity Tests, p. 284

Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32
Toxicity of Solid Rocket Motor Exhaust: Effects of HC1, HF, and Alumina on Rodents, p. 61
Toxicity of Thermal Decomposition Products of Various Paints, p. 71

Red Oak
The Effect of Changes in the USF/NASA Toxicity Screening Test Method on Data From Some Cellular Polymers, p. 237
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/N A S A Toxicity Screening Test Method, p. 305

Residential Fires
Relative Toxicity of Pyrolysis Products of Some Materials Used in Home Furnishings, p. 425

Rigid Foam, High Density
Relative Toxicity of Pyrolysis Products of Some Cellular Products, p. 259

Screening Test Methodology
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32

Self-Sustained Combustion
Combustion and Pyrolysis Products from Synthetic Textiles, p. 393

Smoke
An Investigation of Potential Inhalation Toxicity of Smoke From Rigid Polyurethane Foams and Polyester Fabrics Containing Antiblaze® 19 Flame Retardant Additive, p. 296

Smoke Density Chamber
Evaluation of the Smoke Density Chamber as an Apparatus for Fire Toxicity Screening Tests, p. 103

Smoke Evolution
Acrolein, Formaldehyde, and Volatile Fatty Acids from Smoldering Combustion, p. 135
Some Aspects of Smoke and Fume Evolution From Overheated Non-Metallic Materials, p. 89

Smoke Inhalation
A Chronic Intra-Arterial Cannula and Rapid Microtechnique for Carboxyhemoglobin Determination, p. 471
Combustion and Pyrolysis Products from Synthetic Textiles, p. 393

Smoke Numbers
Some Aspects of Smoke and Fume Evolution From Overheated Non-Metallic Materials, p. 89

Smoldering
Acrolein, Formaldehyde, and Volatile Fatty Acids from Smoldering Combustion, p. 135
The Effect of Temeprature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
Toxicity of Thermal Decomposition Products of Various Paints, p. 71

Solid Rocket Motor Exhaust
Toxicity of Solid Rocket Motor Exhaust: Effects of HC1, HF, and Alumina on Rodents, p. 61

Species, Effect of
Effect of Species on Relative Toxicity of Pyrolysis Products, p. 125

Spectrophotometric Technique
A Chronic Intra-Arterial Cannula and Rapid Microtechnique for Carboxyhemoglobin Determination, p. 471

Synthetic Materials
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5

Synthetic Polymers
Apparatus and Methodology for Fire Gas Characterization by Means of Animal Exposure, p. 24

Synthetic Textiles
Combustion and Pyrolysis Products from Synthetic Textiles, p. 393

Temperature
Acrolein, Formaldehyde, and Volatile Fatty Acids from Smoldering Combustion, p. 135
The Effect of Changes in the USF/NASA Toxicity Screening Test Method on Data From Some Cellular Polymers, p. 237
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
Effect of Temperature and Heating Rate on Apparent Lethal Concentrations of Pyrolysis Products, p. 381
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211
Some Aspects of Smoke and Fume Evolution From Overheated Non-Metallic Materials, p. 89

Testing
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5

Test Methods
An Animal Exposure Test System for Large Scale Fire Tests, p. 166
Relative Toxicity of Pyrolysis Products of Some Cellular Polymers, p. 259

Thermal Decomposition
Combustion and Pyrolysis Products from Synthetic Textiles, p. 393
Toxicity of Fabricated Combustion Products, p. 371
Toxicity of Thermal Decomposition Products of Various Paints, p. 71

Thermal Degradation
A Study of the Toxicology of Pyrolysis Gases from Synthetic Polymers, p. 157

Thermogravimetric Analysis
Fire Toxicology Studies at the Materials Science Toxicology Laboratories, University of Tennessee Center for the Health Sciences, p. 117
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211
Some Aspects of Smoke and Fume Evolution From Overheated Non-Metallic Materials, p. 89

Toxicity of Fabric Combustion Products, p. 371

Thermophysical Tests
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211

THPOH/NH_3
Toxicity of Fabric Combustion Products, p. 371

Time of Useful Function (TUF) Chamber
Toxicity of Thermal Decomposition Products of Various Paints, p. 71

Time to Death
Apparent Lethal Concentrations of Pyrolysis Products of Some Polymeric Materials, p. 345
Relative Toxicity of Pyrolysis Products of Some Materials used in Home Furnishings, p. 425
Studies with the USF/NASA Toxicity Screening Test Method: Effect of Air Flow and Effect of Fabric Dye, p. 479

Time to Incapacitation
Apparent Lethal Concentrations of Pyrolysis Products of Some Polymeric Materials, p. 345
Relative Toxicity of Pyrolysis Products of Some Materials Used in Home Furnishings, p. 425
Studies With the USF/NASA Toxicity Screening Test Method: Effect of Air Flow and Effect of Fabric Dye, p. 479

Tissue Perfusion
Mathematical Modeling of Inhalation Exposure, p. 201

Titrimetric Methods
Determination of Hydrogen Cyanide in Fire Gases, p. 363

Toxic Effluents
Effect of Temeprature and Heating Rate on Apparent Lethal Concentrations of Pyrolysis Products, p. 381

Toxic Materials Characterization
Relative Toxicity of Pyrolysis of Some Cellular Polymers, p. 259
Relative Toxicity of Pyrolysis Products of Some Loose Fiber Materials: A Preliminary Study, p. 151
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270

Toxic Threat Assessment
An Animal Exposure Test System for Large Scale Fire Tests, p. 166

Toxicity
Apparent Lethal Concentrations of Pyrolysis Products of Some Polymeric Materials, p. 345
Effect of Species on Relative Toxicity of Pyrolysis Products, p. 125
Relative Toxicity of Pyrolysis Products of Some Loose Fiber Materials: A Preliminary Study, p. 151
Toxicity of Fabric Combustion Products, p. 371
Toxicity of Thermal Decomposition Products of Various Paints, p. 71

Toxicity Hazard
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5

Toxicity Ranking, Relative
The Effect of Changes in the USF/

N A S A Toxicity Screening Test Method on Data From Some Cellular Polymers, p. 237
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211

Toxicity, Relative
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
A Large Hemispherical Chamber for Fire Toxicity Tests, p. 284
Relative Toxicity of Pyrolysis Products of Some Cellular Polymers, p. 259
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270

Toxicity Screening Test Method
The Effect of Changes in the USF/NASA Toxicity Screening Test Method on Data From Some Cellular Polymers, p. 237
Relative Toxicity of Pyrolysis Products of Some Cellular Polymers, p. 259
Relative Toxicity of Pyrolysis Products of Some Loose Fiber Materials: A Preliminary Study, p. 151
Relative Toxicity of Pyrolysis Products of Some Synthetic Polymers, p. 270
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211

Toxicological Assessment
Philosophy of Testing for Assessment of Toxicological Aspects of Fire Exposure, p. 5

Toxicology
Fire Toxicology Studies at the Materials Science Toxicology Laboratories, University of Tennessee Center for the Health Sciences, p. 117
A Study of the Toxicology of Pyrolysis Gases from Synthetic Polymers, p. 157
Toxicity of Solid Rocket Motor Exhaust: Effects of HC1, HF, and Alumina on Rodents, p. 61

Trimethylolmelamine
Toxicity of Fabric Combustion Products, p. 371

University of Tennessee,
Center for Health Sciences
Fire Toxicology Studies at the Materials Science Toxicology Laboratories, University of Tennessee Center for the Health Sciences, p. 117

Upholstery Materials
Studies With the USF/NASA Toxicity Screening Test Method: Effect of Air Flow and Effect of Fabric Dye, p. 479
Relative Toxicity of Pyrolysis Products of Some Materials Used in Home Furnishings, p. 425

Uptake of Vapors
Mathematical Modeling of Inhalation Exposure, p. 201

Urethane Foam
Some Aspects of Smoke and Fume Evolution From Overheated Non-Metallic Materials, p. 89
Studies With the USF/NASA Toxicity Screening Test Method: Effect of Air Flow and Effect of Fabric Dye, p. 479

Urethane Foam, Flexible
The Effect of Changes in the USF/NASA Toxicity Screening Test Method on Data From Some Cellular Polymers, p. 237
Relative Toxicity of Pyrolysis Products of Some Cellular Polymers, p. 259
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32

Urethane Foam, Rigid
The Effect of Changes in the USF/NASA Toxicity Screening Test Method on Data From Some Cellular Polymers, p. 237
An Investigation of Potential Inhalation Toxicity of Smoke From Rigid Polyurethane Foams and Polyester Fabrics Containing Antiblaze® 19 Flame Retardant Additive, p. 296
Relative Toxicity of Pyrolysis Products of Some Cellular Polymers, p. 259

Urethane Paint
Toxicity of Thermal Decomposition Products of Various Paints, p. 71

USF/NASA Screening Test Method
The Effect of Changes in the USF/NASA Toxicity Screening Test Method on Data From Some Cellular Polymers, p. 237
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
Relative Toxicity of Pyrolysis Products of Some Materials Used in Home Furnishings, p. 425
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211
Studies With The USF/NASA Toxicity Screening Test Method: Effect of Air Flow and Effect of Fabric Dye, p. 479
A Technique for Extracting Blood Samples from Mice in Fire Toxicity Tests, p. 465

Vinyl Acrylic Latex Paint
Toxicity of Thermal Decomposition Products of Various Paints, p. 71

Vinylon
Acrolein, Formaldehyde, and Volatile Fatty Acids from Smoldering Combustion, p. 135

Wet Chemical Analysis
Determination of Hydrogen Cyanide in Fire Gases, p. 363

Wool
Effect of Species on Relative Toxicity of Pyrolysis Products, p. 125
The Effect of Temperature and Air Flow on the Relative Toxicity of Polymeric Materials by the USF/NASA Toxicity Screening Test Method, p. 305
A Large Hemispherical Chamber of Fire Toxicity Tests, p. 284
Relative Toxicity of Pyrolysis Products of Some Foams and Fabrics, p. 32
The Sensitivity of Relative Toxicity Rankings by the USF/NASA Test Method to Some Test Variables, p. 211
